

# Runner Sizing & Tablecloth Fit Guide

A quick reference for measuring your market table so every runner, fitted cloth and styling layer lands beautifully on the day.

## Standard runner sizes

Runner	Width	Length	Best for
Standard	65 cm	180 cm	6ft trestle (most markets & fairs)
Compact	55 cm	140 cm	4ft trestle and small pop-ups
Long drop	65 cm	220 cm	6ft table with front drop
Statement	75 cm	240 cm	8ft trestle & wedding fairs

## How to measure your table

1. **Length:** measure the full top of the table end to end.
2. **Width:** measure across the short side.
3. **Drop:** decide how far you want the runner to hang at the front — 20–30 cm gives a polished, branded look without trailing on the floor.
4. **Photograph it:** a quick phone photo with a tape measure visible helps me confirm fit before printing.

## Fitted stretch tablecloth fit

Cloth	Fits table	Style
4ft fitted	122 × 76 cm	Compact pop-ups & small fairs
6ft fitted	183 × 76 cm (standard trestle)	Most UK markets & craft fairs
8ft fitted	244 × 76 cm	Wedding fairs & large events

The fitted cloth stretches snugly over a standard 28–30 inch (71–76 cm) tall trestle for a clean, crease-free finish. The branded runner sits on top.

## Coordinating runner + cloth

- Pair a **black fitted cloth** with a natural linen runner for a polished, modern stall.
- Add a **hessian styling layer** under the runner for a softer, rustic look.
- For wedding fairs, choose an **ivory or white** fitted cloth with a premium lace, chiffon or ribbon styling layer.

## Lead times

Most bundles are designed, mocked up and dispatched within **2–3 weeks** from the date your design is approved. Mention your event date in your enquiry and I'll prioritise where I can.
